

Residency in Practice Initial Conference With Student

Eric M. Fink
Elon Law School
Spring 2019

Student

Christina Saxton

Placement

NLRB (Winston-Salem subregional office)

Learning Goals & Plan

Good mix of substantive law and practical skills.

Good specific plans for meeting goals.

Was originally supposed to be working in compliance. Instead she's working with attorneys on investigations in ULP and Representation cases. She's happy with this.

First Week Experience

Learning about the NLRA - Reviewing internal training modules for Board attorneys

Observed hearing on employer's election objections in representation case.

Observed attorneys taking affidavits from charging parties in ULP cases

Has been assigned two ULP cases for investigation. - Called charging party to arrange affidavit appointment - Reviewed information provided by charging party - Researched cases and drafted memo

Other issues

Working with different attorneys in office, getting a sense of how they handle cases. Supervisors are helpful with getting her up to speed on the law since she hasn't had the chance to take Labor Law.
